### **Reasons for Allowance**

1. The following is an examiner's statement of reasons for allowance: in claims 1 and 8, the language "that is operable with a reader device" was added to the preamble to both claims. More significantly, language was added to the bodies of claims 1 and 8 that positively refers to the reader by setting forth "the reader device detecting a decrease in amplitude at the transmitting antenna that indicates the presence of the memory device" and this language is considered by the Examiner to effectively make claims 1 and 8 combinations claims drawn to the cartridge and the reader in that the claims are drawn to the cartridge in a state where the reader is present and the two are configured such that the reader is capable of performing the function of detecting a decrease in amplitude at the transmitting antenna of the cartridge.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
